Further modules in this term

Interdisziplinäre Summerschool Städtebau (E,5)

ED120049

Blockveranstaltung, Details → TUMonline

For the beginning dates of the courses and detailed weekly schedules please check TUMonline using the respective Course-No. Students registered for the courses will be automatically notified about changes.

**This schedule is valid for each summer term. In case of overlapping courses, there is another chance to take one in the next year.**

Modules and Courses

What is a Module?

A module is a didactic unit consisting of one or more thematically related courses. The module is completed by the “module examination”, which is in most cases a single exam covering all of the module’s courses. The ECTS-credit points are granted for the whole module after a successful participation in the module examination.
