

Time	Monday	Tuesday	Wednesday	Thursday	Friday
8:00 - 9:30		Urban Flood Modelling (E,3) BGU54026 Urban Hydrology and Urban Flood Modeling 2601	Flood Risk and Flood Management (E,6) BGU54009 Flood Risk and Flood Management 2760		
9:45 - 11:15					
11:30 - 13:00		Scientific Work and Presentation Skills (CC-R,6) ED150006 Scientific Methods and Presentation Skills [1/2] 0220			
13:15 - 14:45	Landslides (E,6) BGU67001 Landslides - Recognition, Investigation & Mitigation Measures [1/2]	Risk Assessment and Reliability of Engineering Systems (E,6) BGU60021 Risk Assessment and Reliability of Engineering Systems 0540	Scientific Work and Presentation Skills (CC-R,6) ED150006 Exercise [2/2] 0220		
15:00 - 16:30	Geodetic Monitoring of Landslides [2/2] 2408		Estimation of rare events and failure probabilities (E,3) BGU60018 Estimation of rare events and failure probabilities 15:00 – 17:30 N3823		
16:45 - 18:15					

This schedule is valid for students of the study regulations FPSO20221 (start of the program from the winter term 2022-23)

Further modules in this term

Modules and Courses

What is a Module?

A module is a didactic unit consisting of one or more thematically related courses. The module is completed by the “module examination”, which is in most cases a single exam covering all of the module’s courses. The ECTS-credit points are granted for the whole module after a successful participation in the module examination.

How to read the timetable:

For the beginning dates of the courses and detailed weekly schedules please check TUMonline using the respective Course-No. Students registered for the courses will be automatically notified about changes.

This schedule is valid for each summer term. In case of overlapping courses, there is another chance to take one in the next year.
