This schedule is valid for students of the study regulations FPSO20221 (start of the program from the winter term 2022-23)

## Further modules in this term

For the beginning dates of the courses and detailed weekly schedules please check TUMonline using the respective Course-No. Students registered for the courses will be automatically notified about changes.

**This schedule is valid for each winter term. In case of overlapping courses, there is another chance to take one in the next year.**

## Modules and Courses

### What is a Module?

A module is a didactic unit consisting of one or more thematically related courses. The module is completed by the “module examination”, which is in most cases a single exam covering all of the module’s courses. The ECTS-credit points are granted for the whole module after a successful participation in the module examination.
